Dear Mr Anusewicz,

I would be most grateful if you could assist me in contacting the owner of the three deHavilland four engine Herons which are parked near your facility next to Lagoon Drive. (I believe they are called Herone; they certainly were when I flew in them in the Royal Navy.)

I would be interested in purchasing them if they are available.

I am currently here in Honolulu harbour aboard the vessel Golden Odyssey. The above numbers, although Florida numbers, reach me locally via a satellite switching service. I also have a local cellular number 228 3562.

With many thanks,
