U.S. Virgin Islands 00820

Dear Mr. Anusewicz,

Almost two years ago I wrote to Antilles Air Boats asking for help with the specifications of the Grumman Widgeon amphibian. I mentioned that I was an inmate in the Indiana State Prison at Michigan City, Indiana ..I still am. That hasn't changed and won't for some years I'm afraid.

I have finished the model of the Widgeon that I needed help with. I have enclosed several pictures of the model, one of which I am in...out of focus aircraft however. I thought that you might want to see what can be accomplished with only hand tools. This place is unbelievable when it comes to acquiring modelling tools....all in the name of security.

I have received a partial set of plans for the Donier DO-X seaplane of the late 1920's and I think that will be the next model that I attempt to construct.

Once again, I thank you for the help that you gave me several years ago. It enabled me to proceed with the construction of the model without undue delay.

Sincerely ,

Neal Ruetz
