FROM NEW YORK

MAY HAVE BROKEN SEAPLANE ALTITUDE RECORD

Capt. Boris Sergievsky (~~1930~~), giving his instruments  
to ~~Mr. Christopher~~, secretary of the National Aeronautical  
Assn., after having flown his seaplane, with a useful load  
of 2,000 kilograms (slightly more than 4,000 pounds) to  
an unofficial height of 19,300 feet, above North Beach,  
L.I., March 4. The instruments must be checked, however,  
before the record is officially accepted. The former record  
was 15,837 feet.
